1. Rules of Auction

- 1.1 My Mobile Airtime Auctions are available worldwide to the general public twenty-four hours a day.
- 1.2 The Auction House is My Mobile Limited which may also be regarded as the Auctioneer.
- 1.3 The Auctions are held at <http://www.trada.net>, where the Rules of Auction (Rules) are published with the Website Terms and Conditions of Use (Terms) www.smartcalltech.co.za; www.trada.net. The Rules and Terms comprise one inseparable agreement being incorporated by reference in terms of section 11 of the Electronic Communications and Transactions Act, 25 of 2002.
- 1.4 The Auction House is the owner and / or licenced seller of the Goods and Services on Auction.
- 1.5 No requirement exists for My Mobile to have a trust account.
- 1.6 The reason for the Auctions is the normal and voluntary disposal of Goods and Services by the owner in the normal course of business and for profit.
- 1.7 Neither the Auction House nor the Auctioneer have the right to bid on Goods or Services on Auction.
- 1.8 No reserve or upset price is applicable.
- 1.9 No Goods or Services are sold in lots.

2. How My Mobile Auctions Work – Three Kinds of Auctions

- 2.1 My Mobile's Auctions Services are not like traditional auctions. My Mobile's "Timer", "Clock" and "Bid-to-Win" auctions are a new kind of electronic auction where Bids are purchased on a prepaid basis in Bid Packs that are used to Bid for airtime. My Mobile Auctions are similar to traditional auctions in some respects in that Bidders (Users of the Auction Services) compete against one another to Win the Prize, where the Prize is the Item of airtime up for auction.
- 2.2 Timer Auctions

2.2.1 A Timer Auction counts down one second at a time. With each bid the auction price increases and a small amount of time is added to the clock in order to give other Bidders a chance to Bid and Win. When the clock reaches zero the current Bidder Wins.

2.3 Count Auctions

2.3.1 A Count Auction is where the stated number of Bids will end the auction similar to the “fall of the hammer” in traditional auctions. For example, the 10th Bid Wins. Only the current Bidder is informed what number their Bid is. The required Bid number Wins.

2.4 Bid-to-Win

2.4.1 A Bid-2-Win auction gives an instant response to every bid. This is similar to the auctioneer in traditional auction saying, “going ..., going ..., gone”. The next Bid might unlock a Prize. More than one Bid may be used at a time to increase chances of Winning.

2.5 Sayings

2.5.1 “Sayings” are facts or quotations that are given by My Mobile to a bidder with every bid.

2.5.2 Sayings can also be purchased with Bids without a Bidder having to Bid on an Auction.
